PME SERIES

Fine pole with integral flushing for sinker edm's

Description

fine-pole chuck with integral flushing for sinker EDM's

- Integral flushing hole system in top plate for suction or pressure flushing of erosion material
- Fine pole with inter-pole design minimises magnetic flux height to ensure free flushing of erosion material
- Fully saturating magnetic design with positive-off ensures consistent performance across entire chuck face and full workpiece release
- Fully submersible for use in EDM baths
- Standard 5 year warrantee!
